About Us

Serving the Mid-Atlantic's Industrial Pump and Process Equipment Needs for 40 years

Geiger Pump & Equipment Company was formed in 1983 and has since grown into the Mid-Atlantic's largest industrial pump and process equipment solutions provider.

Since the company's inception, Geiger's commitment to offering a superior service alternative and trusted innovation has been consistently evident to our customers. Industry leading companies, regional and national engineering firms, and local water and wastewater treatment operations have relied on Geiger's team of engineers, millwrights, designers, machinists, and fabricators to support their application needs for over 40 years.

Geiger offers best-in class application engineering and order processing as well as unmatched off-the-shelf inventory availability. Additionally, Geiger represents the premier manufacturers in the US for Fluid Handling Equipment, Sealing Devices, Mixers, Vacuum Pumps, Fans, Blowers, and Municipal process equipment

Our team approaches tough challenges with integrity, ingenuity, determination, and commitment to our customers. We combine best-value solutions with decades of experience to offer solutions we are proud to stand behind.

Whatever your fluid or gas handling or sealing problem, ***Geiger is your best first call.***

A-C Pump

a Xylem Brand
Potable water, split case, end-suction, vertical, extended shaft, and self-priming pumps

Ampco Pumps

Sanitary Pumps, blenders, mixers

BJM Pumps

Submersible pumps for wide variety of applications, such as heavy solids, abrasive slurries, and fluid temps up to 200F.

ITT Bornemann

Twin-Screw and multiphase pumps and systems for terminals, food, pharmaceutical, and oil production

CAT Pumps

High pressure piston and plunger pumps, custom systems, and accessories

Dimpleflo Heat Exchangers by Teralba

Heat exchangers with a dimpled tube design to increase heat transfer efficiency in both tube-in-tube or multi-tube shell-in-tube configuration

FMC Technologies

Piston and plunger pumps for the most demanding services

FLUX

Drum and container pumps, drum unloading systems, mixers

Finish Thompson Inc.
Non-metallic pumps for a wide variety of applications

Goulds Pumps (ITT)
Industrial centrifugal pumps; ANSI, split case double suction, slurry, self-priming, submersible, sealless mag-drive, cantilever, low-flow, and non-metallic

Goulds Water Technology
a Xylem Brand
Centrifugal end suction, multistage, submersible and vertical turbine pumps.

Grindex
Submersible dewatering, slurry, and sludge pumps

John Crane
Component and Cartridge Mechanical seals for pumps and mixers. Packing, and high-performance couplings

MOYNO
Progressing cavity pumps, HS cake pump systems, Annihilator, and TR Muncher inline and channel grinders

Geiger Offers:

- Routine and Emergency Repairs and Rebuilds
- In-House Machining
- Impeller Trimming and Balancing
- On-Site Troubleshooting
- Root-Cause Analysis
- Engineered Upgrades
- Start-Up Services
- Alignments
- Seal Repair
- Training
- Extensive Parts In Stock
- Equipment Selection and Applications Engineering
- And MORE

Packages, Controls and Monitoring

Geiger offers innovative solutions for monitoring, controls, and pump system integration. With variable speed drives, monitoring instrumentation, and extensive pump control and system packaging experience, we can simplify and solve your pump control and monitoring challenges.

Pulsafeeder

Hydraulic, mechanical & solenoid diaphragm metering pumps. Metallic and non-metallic external gear pumps

PumpSmart ITT Industries

Variable Speed Drives and control solutions made for pump applications

SANDPIPER

Air-Operated double diaphragm pumps and accessories

Singer

Engineered control valves for water distribution, surge prevention, altitude valves, and more

Tenco Hydro

An OEM Solutions Company
Water | Wastewater | Automation

Tenco Hydro

Clari-Float DAF Systems, Clari-Scum Scum Concentrators, Thermix Batch Processing Tanks for Scum/Grease

UIG Tanks, Inc

Innovative storage solutions, ranging from Bolted Water Tanks to Field Welded Fuel Storage. Including EVERSTORE® Glass Fused-to-Steel Bolted Tanks and more

VERDER

Peristaltic tube and hose pumps for chemical metering and transfer

VAL-MATIC Valve

Eccentric Plug Valves - Flanged, MJ, Threaded Check Valves - Silent, Dual Disc, Tilted Disc, Swing Flex Air Valves - Release, Sewage, Combination AWWA Butterfly Valves, AWWA C504 Ball Valves

Versa-Matic
Air-Operated double diaphragm pumps and accessories

Viking Pump
Internal gear, external gear, magnetic drive, sanitary, rotary lobe, in-line strainers, power load monitors

WARREN RUPP, INC
Sandpiper® (IDEX) - Air operated double diaphragm pumps, for difficult sludge and chemical applications

Wrightflow Technologies (Viking Sanitary)
Sanitary Pumps, including rotary lobe and rotary piston pumps

Abel Pump Technology
Piston and electric operated double diaphragm (EODD) pumps for rugged applications

Air, Gas, & Vacuum

MD-Kinney
Rotary Positive Displacement Blowers, Kinney Rotary Piston Pumps, Kinney Rotary Vane Pumps, Liquid Ring Vacuum Pumps, Dry Screw Pumps, & Engineered Vacuum Systems

ROTRON AMETEK
Regenerative Blowers, Environmental Blowers, Remote Driven Regens, & Chemical Duty Blowers

Applied Acoustical Group
High Performance Noise Enclosures, Stainless Steel, Aluminum & Fiberglass, & OEM & Custom Markets

Extensive, Local Stock

With facilities located in both Eastern PA near Philadelphia and in Baltimore, Geiger offers extensive local stock that is unparalleled in our region.

UIG TANKS

Geiger Pump & Equipment Company is now partnered with United Industries Group, Inc. (UIG), a leading manufacturer of glass-fused-to-steel tanks and aluminum domes.

This partnership allows Geiger to provide our industrial and municipal customers with UIG's innovative, highly corrosion-resistant tank solutions alongside Geiger's existing pump and process equipment lines.

UIG's glass-fused-to-steel tank technology overcomes common corrosion issues that affect many industries. The glass coats the steel at high temperatures, creating an impervious bonded surface designed to withstand harsh conditions and aggressive chemicals. The high-titanium steel construction and stainless hardware ensure long lifespans. These tanks resist corrosion across the entire 0-14 pH range, outperforming epoxy-coated alternatives.

Geiger offers and supports UIG's products in Maryland, Virginia, New Jersey, Delaware, and Pennsylvania. To learn more about UIG's products and Geiger's capabilities, contact our team.
